### ABOUT ME

Friendly and trustworthy developer who really loves his job. Always eager to learn and improve. Let's make something great together!

### EXPERIENCE

#### UpWork

2020 - present

Front-end web development based on clients' requests. Got 5-star reviews with positive feedback. Projects examples:

Stocks market live app

- Complex UI with menus, tables and charts using React.js, Chart.js and Styled Components
- Live data search functionality for various stocks achieved with Yahoo Finance API, Node.js and MongoDB

Order cost calculator for a printing company

- Development of filtering logic and interface using React.js, JavaScript, Ant Design and more

Restaurant reservation system

- Design of system structure and business logic with JavaScript
- Public UI with HTML, CSS, Sass, Bootstrap

QR-code based waiter calling system

- Implementation of features with JavaScript, JQuery, Sass, PHP

#### ThemeForest (Envato)

2019 - 2020

Development of portable themes for websites from scratch

- JavaScript, JQuery
- HTML, CSS, PHP, Sass, Bootstrap

### PROJECTS

#### Personal Portfolio Website

July 2021

Development of my single page portfolio website *alexgenin.com* with modern UI and subtle animations using React (Hooks), Sass and more. Source code and live version:
